WORK EXPERIENCE

SEEKTHEM

Jun 2025 – Jun 2026

Senior Technical Customer Success Manager

- Identified expansion and renewal risks across a key client account and defined mitigation strategies that reduced early-stage issues by 10% and increased product development efficiency by 15%.
- Delivered targeted training and optimisation sessions for two B2B clients to boost product adoption, improving overall performance metrics by 12% and reducing operational roadblocks by 25%.
- Led Net Revenue Retention (NRR) strategy for a \$300K ARR segment, designing playbooks for risk and growth, and elevating NRR from 108% to 122% over four quarters.

MEDITAB SOFTWARE

Aug 2019 – Jun 2025

Senior Product Deployment Analyst

- Created project plans and scope documents for an upgrade automation initiative, coordinating delivery and training to ease system upgrades by 40%.
- Streamlined the training process through proactive communication and tailored sessions, improving training efficiency by 15% and reducing confusion during go-live.
- Designed Customer Success playbooks and account planning frameworks that reduced strategic account review preparation time by 38% across the department.
- Championed Voice of Customer programs across a \$2.0M ARR base, consolidating feedback into Product insights that drove three major releases and a 12-point NPS improvement.

MEDITAB SOFTWARE

Jan 2019 – Aug 2019

Interface Analyst

- Coordinated with Quest engineers on configuration and performed end-to-end testing, reducing project delays by 25% and improving resource utilisation by 10%.

DRCATALYST

Jan 2018 – Dec 2018

Virtual Administrative Assistant

- Eliminated administrative bottlenecks by 20% to support smoother client operations by optimizing data preparation workflows and streamlining inter-departmental communication.

KEY PROJECTS

AI-Driven Health Platform — DecodeDx

- Translated clinical workflow insights into product redesigns for an early-stage AI health platform, successfully reducing user drop-off by 25%.
